

RAGHAV SHARMA

☎ +91 7042019181 | ✉ raghu250407@gmail.com | 🔗 LinkedIn | 🐙 GitHub | 🌐 raghavcodes.vercel.app | 📍 New Delhi, IN

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Solidity, Rust
Frontend: React, Next.js, Tailwind CSS, WebSockets
Backend: Node.js, Express, Django, RESTful APIs
Databases: MongoDB, PostgreSQL, Supabase, Redis
Cloud & DevOps: AWS (IAM, S3, EC2, ECR, ECS Fargate), Docker, CI/CD, Microservices
Blockchain: Solana, Anchor Framework, IPFS, Smart Contracts
Tools: Git, GitHub, Postman, Bash, Vercel AI SDK, OpenAI APIs

EXPERIENCE

Software Engineering Intern

Feb 2025 – June 2025

FOSSEE, IIT Bombay

Remote

- Architected RESTful backend APIs using Django for structural steel calculations in Osdag, serving 2,000+ engineers
- Engineered React-based visualization interfaces rendering real-time 3D CAD models and engineering computations
- Designed persistent session management system enabling engineers to resume complex 50+ step design workflows
- Deployed Dockerized microservices with CI/CD pipelines, reducing deployment time by 40%

Software Engineering Intern

July 2024 – Sept 2024

Debales AI

Katy, Texas, USA (Remote)

- Engineered dynamic data visualization components processing 10,000+ AI-generated insights, driving 20% engagement growth
- Architected session-based chat persistence handling 500+ daily conversations with zero data loss
- Integrated real-time product image rendering via CDN optimization, accelerating load times by 45% and boosting interaction by 30%
- Built analytics-driven feedback system collecting 1,200+ user ratings, enabling 15% model accuracy improvements
- Debugged critical production issues affecting 5,000+ users, increasing satisfaction scores from 3.2 to 4.5/5

PROJECTS

EzDeploy | Next.js, TypeScript, AWS, Docker, PostgreSQL, Redis | Live | 🐙 Code

- Architected production-grade PaaS platform automating deployment of 100+ applications with 99.9% uptime
- Engineered AWS ECS Fargate orchestration with S3 asset delivery and Redis pub/sub, processing 50+ concurrent builds
- Implemented secure multi-tenant architecture with PostgreSQL, Better-Auth JWT, and Drizzle ORM supporting 200+ users
- Built containerized CI/CD pipeline with WebSocket streaming, delivering real-time logs at 100ms latency

ResumeMax | MERN Stack, OpenAI APIs, TailwindCSS | Live | 🐙 Code

- Built AI-powered resume platform generating tailored content using GPT-4, serving 800+ job seekers
- Architected version control system managing 3,000+ resume variants with role-specific optimization
- Engineered context-aware cover letter generator leveraging job description analysis and keyword matching
- Designed ATS-optimized templates achieving 90%+ parsing accuracy across 15+ applicant tracking systems

Learnsol | Next.js, TypeScript, PostgreSQL, Solana, Anchor | \$5K Grant | Live | 🐙 Code

- Built specialized AI tutor trained on 10,000+ pages of Solana/Rust/Anchor documentation with 92% answer accuracy
- Engineered interactive coding sandbox with real-time compilation, enabling hands-on token and NFT program development
- Integrated voice-enabled AI assistant using WebRTC, reducing debugging time by 35% through conversational support
- Onboarded 250+ developers with intelligent error analysis system resolving 1,500+ compilation issues

EDUCATION

Dronacharya College of Engineering
Bachelor of Engineering in Computer Science

Gurugram, Haryana, IN
Oct 2022 – Present

ACHIEVEMENTS

Smart India Hackathon 2024 Winner – 1st Position as Team Leader (Top 0.375% from 80,000+ teams nationwide)
Solana Foundation Grant – \$5,000 funding for Learnsol platform (Top 2% selection from 250+ submissions)
NES Innovation Awards 2024 – Top 50 Project Ideas (Selected from 800+ submissions)
IIT Bombay FOSSEE Internship – Competitive selection from 3,000+ applicants (Top 5% acceptance rate)
